

LCANZ CERTIFICATION Hold Harmless Disclaimer

By agreeing to the language below and participating in this certification program you expressly and irrevocably consent to and agree with the following:

Certification is not a requirement for the practice of Life Cycle Assessment (“LCA”). The certification purports only to certify that you have met the requirements for certification set by LCANZ. These requirements pertain to education, experience and mastery of a practice-related body of knowledge. The LCANZ does not warrant or purport that you will achieve certification upon testing or that upon certification you will be competent in performing LCA services, nor is LCANZ responsible for your abilities or skills. To the fullest extent permitted by law, neither LCANZ nor its respective employees (paid and unpaid), committee and association members, agents, affiliates and contractors will be liable for any direct, indirect, incidental, special, exemplary, or consequential damages however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of your success or failure to achieve certification nor of your use of the certification.

You affirm that you will

- Conform to the LCANZ Code of Conduct for LCAPs.
- Make claims regarding certification only with respect to the scope for which certification has been granted;
- Not use the certification in such a manner as to bring LCANZ into disrepute, and not make any statement regarding the certification which LCANZ may consider misleading or unauthorized;
- Discontinue the use of all claims to certification that contains any reference to LCANZ or certification upon suspension or withdrawal of certification, and return any certificates issued by LCANZ; and
- Not use the certificate in a misleading manner.

If any part of this disclaimer is held to be invalid, the remaining parts will continue to be valid and enforceable.

LCANZ reserves the right to change examination criteria, examination methodology, or the certification mechanism at any time, without notice to candidates.
