Reflections on #rethinkplastic

Feb 12, 2019 | News, Plastics, Reflections

In our [rethinking plastics project](#), the panel has agreed to a broad scope across four workstreams:

- Categorisation of plastics entering and leaving Aotearoa New Zealand
- Changing our relationship with plastics
- Life cycle assessment of product systems
- Innovation solutions

Productivity Commission

- Effective action depends on changes in attitudes and values to favour climate-change mitigation. Better information on the emissions **embodied** in consumer goods and services will contribute.
- Interventions to address significant shocks to communities resulting from emissions-reduction
